

# How to change your account password?

1

After you log in, go to your account dashboard. You can find it at the top of the website, where your account name is displayed.

2

From your account dashboard, click on Settings.

3

Then, click on the Password sub-menu. On this page, enter your current password, then enter your new password as desired.

4

After completing this step, your password will be successfully updated. The system will automatically log you out and return you to the login page. Please log in again using your username/email and the new password you just set.
